

Universal

General Purpose Imaging Solutions

Designed for today's cost and performance conscious global practitioners.

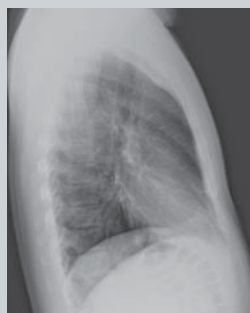

Universal

Keeping Promises for Over Eighty Years.

DC PRO™ Digital Chest Imaging System

The Universal **DCPRO™** is a cost effective direct digital chest x-ray system. High quality digital images are achieved in less than 10 seconds with a powerful 500 mA high frequency generator. Preprogrammed APR techniques increase diagnostic and operator efficiency.

Digital upgrades are also available!
Enhance your existing system with a digital wallstand or choose one of our CR solutions.

FTT Four-Way Float Top Table System

- **FTT Four-Way Float Top Radiographic Table**
- **3546E Vertical Wallstand**
- **3308B Floor to Wall, Floor to Ceiling Rotating Tubestand**

The Universal **Four-Way Float Top Table** simplifies the process of accomplishing high quality general radiographic images with minimal patient shifting. The smooth gliding four-way float top enables easy positioning of patients up to 500 lbs. (227 kg).

Universal's **Rotating Tubestand** delivers quality and versatility at an affordable price.

EV650 Elevating Four-Way Float Top Table

- **EV650 Elevating, Four-Way Float Top Radiographic Table**
- **3546E Vertical Wallstand**
- **FST Free Standing Tubestand**

Designed for upright radiography, the Universal 3546E Vertical Wallstand features extensive travel of the receptor to provide a full range of views and patient heights.

Universal's Free Standing Tubestand features a low profile, free-standing rail for support, eliminating the need for costly room modifications.

The EV650 features a rugged design that accommodates a 650 lb. (295 kg) patient load capacity, making it ideally suited for hospitals, urgent care centers, clinics and private practices.

The elevating table can lower to 22.25 in. (56.5 cm) for safe and comfortable loading of a full range of patients. Slanted, recessed foot pedals offer a safe environment for both patient and operator.

Additional Tube Mount Options

EV650 with 3308B Rotating Tubestand

Ceiling Tube Mount

For over 80 years, the Universal family of products has offered affordable solutions in diagnostic imaging. To accommodate the needs of the diversified worldwide imaging market place, Universal offers a complete array of DR, CR and film-based imaging solutions.

In the history of the company more than 1.5 million imaging suites have been manufactured, shipped and installed worldwide. It is estimated that more than one-half million units are still in use worldwide.

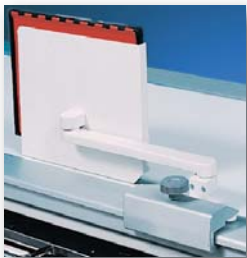

Whether you're looking for a simple, reliable rotating tube stand with four-way float top, ceiling tube mount with rugged elevating table, or special configured suite, Universal should be your supplier of choice. Our facilities in Chicago and Milan produce cost effective products with no compromise in quality.

Generators

Universal has been providing generators that are user-friendly, powerful, compact, reliable and flexible. Regardless of your generator choice or installation site requirements, a Universal generator will give you peace of mind in producing quality images. Ask for more information and a Universal representative can assist you with making the right choice for your practice.

Table Accessories

Lateral cassette holder

The cassette holder clamps to the side of the table and can be adjusted in height to reach the desired angle.

Compression band

The compression band attaches to the rail on both sides of the table and is used to even out the thickness of the area of interest.

Universal branded products are manufactured and distributed by UMG/Del Medical. Del Medical is an ISO 13485 & ISO 9001 Certified facility. Specifications are subject to change without notice.
